

POSTSCRIPT 15

Love is Everything

WHEN I started to write this book, I did not intend to write postscripts to follow the chapters. However, the love of Universe kindly reminded me that writing the postscripts was necessary. I am touched whenever I see the unconditional love and care given to the creatures from the nature of the Universe!

Even before this book is available on the market, there will be a variety of Incidents In the news, around the world, that cannot be explained by religion and science. This is because the Universe is beginning to warn people to make the right choice. Although there will be people who still do not realize the situation and will ignore the importance of improving, I hope you are not among them. I hope that by practicing the book's method you can gain the ability to defend yourself from danger, and also help others by promoting the merits of owning the copyrighted *Super Life Secret Codes*. The people who behave well will have happier and safer lives. Once we have gathered enough positive energy, we can prevent the earth from destruction, and everyone will be contributors.

It is unnecessary to become an instructor for the book's methods. As long as you have been selected by the Universe, you will feel joy when you start connecting to this book and practice the core methods. You will find that the results you have are amazing. There are two possible reasons why some would discourage others to read this book. One, they are too

selfish to share the benefits of this book and scared that others may achieve more than themselves. Another possibility is they are the ones who will be punished by the Universe in the near future. From now on, we are like a class of students in the new era. We will see the consequences of those who do not belong in our group. Do not condense the contents of the book to share with others because I have already attached secret codes to every copyrighted version of *Super Life Secret Codes*. The effects of the secret codes will be triggered one by one as you read through the chapters. You will be truly blessed by the Universe and you will accumulate positive energy.

Everything in the world should be simple. Avoid complicating the processes! Truth is always the truth. Right and wrong should be identified and clearly divided. In the past thousands of years, many violent and destructive incidents were perpetrated on others because of the extreme subjective outlook of the aggressor who felt that his subjective vision of truth justified his actions. In the class for the new era, all conflicts, attacks and opposition will not be allowed or tolerated. The new system consisting of love and peace will bring all the students in the class to a whole new world.

In the future, you will have access to more interactions through the *Super Life Secret Codes* official website. Once fate arrives, new messages of life will be posted on the webpage for all viewers. Any message the Universe sends to us, whether good or bad, is all because of its love for mankind. It is also because of this love that we were able to meet and be together not just for today and tomorrow, but also for eternity.

Take care! My friends!
